Subject: An introduction to OCI  
Optometry Council of India (OCI) is a self - regulatory body that has been established in September 2012 under the Company Act. It has been registered under the company act 25A (Not for Profit Company). This organization has been formed with the help of Indian Optometry Federation (IOF) and Association of Schools and Colleges of Optometry (ASCO).

The two key roles of Optometry Council of India are to:  
. Accredit the schools & colleges of Optometry  
. Register optometry practitioners

VISION:

Assuring excellence in optometry education & equitable eye care for India

MISSION:

The Optometry Council of India (OCI) is a professional regulatory body with the responsibility of establishing & maintaining high standards of optometry education & recognition of optometry qualifications in India. It registers optometrists in order to maintain quality, and provide equitable & accountable eye care services for the people of India.

Subject: Making paediatric dispensing fun and functional

The needs of both the child and the parent need to be addressed at the same time. It is essential that the children are dispensed with correctly fitting spectacles, treating them as individuals and not as mini adults. The main aspect is to maintain a good rapport, provide fun filled environment and make the conversation simple and light. It is important the children feel welcome and are happy to return. Make the visit to the optometrist an enjoyable experience for children!
